ANIRUDH K N

Data Science | Analytics | AI/ML

+91 89213 60955 | theanirudhkn@gmail.com | LinkedIn | Portfolio | GitHub | Kerala, India

PROFESSIONAL SUMMARY

Computer Applications graduate and entry-level data science, analytics and AI/ML professional with three internships. Builds Power BI dashboards that surface anomalies and quantify business impact, and develops Python and scikit-learn machine learning pipelines. Skilled in SQL, Python and DAX; works independently, communicates clearly, learns fast.

TECHNICAL SKILLS

Languages: Python (pandas, NumPy, scikit-learn), SQL, DAX, Power Query

ML & AI: Predictive Modeling, Random Forest, Decision Tree, Logistic Regression, Anomaly Detection, Generative AI, Prompt Engineering

Analytics: EDA, Statistical Analysis, Data Cleaning & Transformation, KPI Monitoring, Performance Reporting

Tools: Power BI, Tableau, Streamlit, Advanced Excel, Git/GitHub, REST APIs, Google Workspace

EXPERIENCE

Data Science and Analytics Intern Apr 2026 – May 2026
Future Interns *Remote*

- Automated Python and Power BI reporting to track KPIs and flag anomalies, reducing manual effort ∼30%.
- Delivered sales, churn and marketing funnel analyses as stakeholder-ready reports with clear recommendations.

Risk Dashboard Developer Intern Feb 2026 – Apr 2026
Zetheta Algorithms Pvt Ltd *Virtual*

- Designed real-time financial risk dashboards with live KPI monitoring, applying statistical analysis to large datasets.
- Documented trend summaries for senior stakeholders to support risk-related decisions.

Data Analyst Intern Jan 2026 – Feb 2026
Quest Innovative Solutions Pvt Ltd *Kochi, India*

- Built interactive Power BI dashboards using DAX and Power Query to support business planning.
- Cleaned and restructured multi-source datasets into analysis-ready models for reporting.

PROJECTS

AI Earthquake Risk Analysis & Seismic Pattern Prediction | *Python, Scikit-learn, Streamlit* Apr–May 2026 | GitHub

- Built an ML risk-classification pipeline (Random Forest, Decision Tree, Logistic Regression) with live USGS API data, anomaly detection and severity alerts in Power BI and Streamlit.

Sales Performance Dashboard | *Power BI, DAX* Apr 2026 | GitHub

- Analyzed 38K Superstore orders ($2.30M sales); found Technology the top-revenue category (∼$0.84M).

Customer Retention & Churn Analysis | *Power BI, DAX* Apr 2026 | GitHub

- Identified a 26.54% telecom churn rate via contract, tenure and pricing analysis; proposed retention incentives.

Marketing Funnel & Conversion Analysis | *Power BI, DAX* May 2026 | GitHub

- Mapped a 36K-visitor funnel (5.42% conversion) across four channels; pinpointed Leads-to-Prospects as the top drop-off.

FORAGE VIRTUAL EXPERIENCE PROGRAMS (JAN 2026 – FEB 2026)

- **Deloitte Australia, Data Analytics:** data analysis, visualization and classification tasks (Tableau, Excel) Certificate
- **JPMorgan Chase, Quantitative Research:** commodity pricing and risk models Certificate
- **Tata Group, Gen AI Data Analytics:** EDA and delinquency-risk prediction Certificate
- **AWS, Solutions Architecture:** cloud-hosted infrastructure design Certificate

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026
East Point College of Higher Education, Bengaluru North University *CGPA: 8.5 / 10.0*

CERTIFICATIONS

Google Analytics Certified, Google (Feb 2026) Certificate
Introduction to Generative AI, Google Cloud (Jan 2026) Certificate
Artificial Intelligence Fundamentals, IBM SkillsBuild (Mar 2025) Certificate
AI Infrastructure & Operations Fundamentals, NVIDIA (Feb 2026) Certificate
AI/ML, Python & Data Science, Luminar Technolab (in progress)
